

ALLIANCE BANK OF ARIZONA

The building design incorporates a range of high-quality materials, including stone, wood, and steel.

Location: Flagstaff, AZ

Markets: Commercial | Tenant Improvements & Remodels

In partnership with Alliance Bank of Arizona and Davis Architects, Loven Contracting constructed a new 6,121SF single-story branch building, associated parking and landscaping in the vibrant Aspen Sawmill mixed-use development in Flagstaff, Arizona.

- The building design incorporates a range of high-quality materials on the exterior of the building, including stone, wood, and steel.
- Loven Contracting collaborated with Alliance Bank for security, access control, and communications throughout construction.
- Loven Contracting worked together with client selected IT professionals to secure the vault, the server room, and the exterior ATM walk-up machine.

Services provided for this project included cost estimating, conceptual scheduling / pricing, value engineering, subcontractor selection, project management, construction, and warranty.
