

FINDLAY HONDA

The Findlay Honda features a 3,500SF showroom, a 4-bay quick lube center, a 5,700SF, and 10-bay service center garage.

The Findlay Honda has a spacious parking lot with 240 available spaces available.

The Findlay Honda is a structural masonry facility built using concrete slab-on-grade construction.

Location: Flagstaff, AZ

Markets: Automotive | Commercial

Loven Contracting constructed the 25,000SF Findlay Honda automotive dealership in Flagstaff, Arizona. A structural masonry building utilizing concrete slab-on-grade construction, the Findlay in Flagstaff, AZ includes a 3,500SF showroom, a 4-bay quick lube center, a 5,700SF, 10-bay service center garage, and a spacious parking lot with 240 available spaces. All spaces of this dealership incorporate national brand standards. Lovén Contracting is experienced in working within manufacturer requirements for a timely delivery of automotive projects.

Loven Contracting completed construction on the facility under budget despite fuel, asphalt, and other cost escalations throughout the project. This was achieved through providing Findlay Honda with value engineering and cost estimating services that kept the project affordable.
