

## GRAND CANYON HOUNDS STABLE AND KENNEL

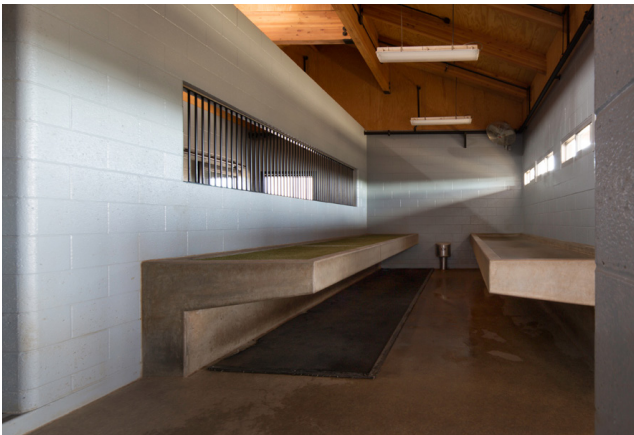

The facility features an expansive 28,000SF indoor riding arena.

**Location:** Flagstaff, AZ

**Markets:** Animal Care

A private owner selected Loven Contracting to construct a state-of-the-art indoor riding arena, stables, and kennel in Doney Park, Arizona. Loven Contracting worked closely with the owner and architect to deliver a facility that features an expansive 28,000SF indoor riding arena, 6,700SF stables for up to 30 horses, a kennel capable of housing 100 dogs, and support facilities with tack storage, veterinary and observation kennels, exam and grooming spaces, and adjacent living quarters for caretaker and kennel staff.

A significant amount of construction on the project was completed during the winter. Additional features include healthcare and training equipment, cast-in-place concrete kennel beds with heating systems, site-built structural trusses, structural insulated panels for the roof, and two roof and underground water harvesting systems. These features and finishes enable this Northern Arizona facility to be functional, durable, and meet the owner's programming requirements.

The cast-in-place concrete kennel beds incorporate heating systems and provide warm or cool bed options for the dogs.

The facility features a kennel capable of housing 100 dogs, veterinary and observation kennels, and exam and grooming spaces.
