

VERDE VALLEY HOSPICE HOUSE

The Hospice House is the Verde Valley Medical Center's first hospice house in Cottonwood, Arizona.

Location: Cottonwood, AZ

Markets: Healthcare

In partnership with Northern Arizona Healthcare and Verde Valley Medical Center, Loven Contracting constructed the first free standing, residence style Hospice House to serve the local Cottonwood and Sedona communities. Located in Cottonwood, Arizona, this 13,443SF facility features ten private patient rooms with individual patios, two private family rooms, a spacious family kitchen, living area, lobby, dining room, meditation room, staff and nurse's stations, and a climatized outdoor patio. Our scope of services included value engineering processes and utilities extensions that enables the facility to fulfill programming needs.

The Verde Valley Hospice House features natural tones and materials to provide a peaceful environment for patients and visitors. Other design features include soft natural light and space reserved for meditation.

The House features 10 patient rooms, each with a private bath, outdoor patio and views of the red rocks.

The Hospice House hosts a meditation room, physician consultation room, a nurse's station, and office.
