

YAVAPAI LODGE RENOVATION

Loven Contracting's scope of services on the Yavapai Lodge renovation included the restaurant, retail area, and lobby, now featuring a lounge area and coffee grab-and-go service.

The lodge now combines functional, contemporary spaces with historical imagery and colors evocative of the Grand Canyon and Southwest.

Yavapai Lodge dining integrates in-line computer based ordering systems for faster customer service.

Location: Grand Canyon National Park, AZ

Markets: Hospitality & Entertainment | Restaurant & Food Service | Tenant Improvements & Remodels

In partnership with Delaware North, Loven Contracting completed renovations of the Yavapai Lodge at Grand Canyon National Park in Arizona. The scope of services included a complete interior renovation of the restaurant, servery, and dining areas, new dining and seating, kitchen modifications, new bar seating, the relocation of the registration desk to the front of the retail area, renovating the lobby to include a lounge area and coffee grab-and-go service, and refurbishment to the retail area.

Originally built in the 1970's, the Yavapai Lodge required updates that would enable the facility to provide quality visitor services and experience. The lodge now features functional, contemporary spaces with historical imagery and colors evocative of the Grand Canyon and Southwest.
