

# STARBUCKS

Loven Contracting is experienced working with corporate entities for brand standards and compliance with building design requirements.

**Location:** Tusayan, AZ

**Markets:** Commercial | Restaurant & Food Service

Loven Contracting partnered with Delaware North Corporation to complete construction of a new Starbucks in Tusayan, Arizona. With Tusayan just 10 miles away from the Grand Canyon National Park, the Starbucks was completed on an accelerated schedule to service visitors to the Grand Canyon. Our scope of construction services included a new 2,000SF addition to the adjacent building, along with a seating area, workroom, backbar, ADA-compliant restrooms, and outdoor patio, all with brand-approved finishes and construction techniques.

To ensure the building designs and finishes complied with Starbucks requirements, Loven Contracting worked closely with the architect throughout the project. In addition, our team utilized value engineering processes to maintain budget.

Our scope of construction services included a seating area, workroom, backbar, accessible ADA-compliant restrooms, and outdoor patio, all with brand-approved finishes and construction techniques.
